## Introductory Customized Massage

(60 min) \$55

Are you shopping for the right massage therapist?

Or are you baffled by the myriad of massage treatments available at spas?

If you answered yes to either of these questions, then our "Introductory Customized Massage" is the way to choose the therapist and bodywork techniques best suited for you.

At the Spa and Wellness Clinic at Texas Healing Arts, we believe that the perfect massage is the balanced combination of therapists-client chemistry and the therapist's skill set. During the introductory

massage, your therapist will create a massage plan just for your needs based on a personalized intake

process. After the massage, your therapist will review the style of bodywork you received so that you can choose from our regular spa menu for your next visit.

If you choose to continue therapist shopping, then feel free to book our "Introductory Customized Massage" with another THAI therapist.

You will need to call to schedule our Introductory Customized Massage. If you decide that you have found the therapist for you, please feel free to ask the front desk about our package deals.
